

AQUARIUS UF1802

The UCF1802 is a pump filtration unit designed for the removal of waste water from material and personnel airlock shower trays. Fitted with a high capacity 18 litres/min quad diaphragm pump, to provide trouble free use, having the ability to self prime or run dry.

Two filter bottles are fitted prior to the pump to provide both filtration and protection from the pumps (20 micron and 5 micron). Connections are 3/4" BSP and the unit is activated by a safe air switch bellows that can be placed in the shower tray.

Benefits of the Aquarius UF1802

- ★ LIGHTWEIGHT
- ★ FLOW RATE 18 LITRES/MIN
- ★ MANUFACTURED IN ABS PLASTIC
- ★ AVAILABLE IN 110v OR 230v
